

School is open

In September all children will be going back to school because it is safe to go back, but things will be different.

Countdown Calendar - Cross off each day till you go back to school

I can use a countdown to help  
me prepare for going back to  
school.

When I go back, school will be different to how I remember it.

This is so that we can all continue to help stop the spread of the Coronavirus. This is okay.

I will stay with the same children  
and teachers each day. I might  
hear this being called 'a group'.  
This is okay.

We will stay with our group to learn, play and eat. This is because our teachers have had to make some changes to keep us safe. This is okay.

How we sit at our tables will be different. We might all face the same way and I might have my own resources to use. This is to help stop the spread of the virus too. I will be with my class and my teacher. This is okay.

At playtime there will be less children on the playground. This means that children in different classes will be having breaks at different times. My teachers will tell me when this will be and I can use a visual timetable to help me to remember. This is okay.

Even though lots of things will be different, there will be many things the same: Teachers will be there to help me and care about me. They will try to make it fun for me. The school building will be the same building. I will travel to school with my family. I will know the children I am with.

# There are things that I can do to help to stop the spread of the virus.

Wash your hands regularly and for at least 20 seconds.

I may have to use hand sanitiser.

don't touch face

cough into tissue

cough into elbow

I will try to keep at a distance to other people when I can.

If I have a worry or a question  
about going back to school, then  
I can talk to my teachers and  
family.
